

VacPak-It VMC100P Chamber Vacuum Packaging Machine with 10 1/4" Seal Bar and Oil Pump

Item #186VMC100P

Technical Data

Width	13 Inches
Depth	19 Inches
Height	14 3/16 Inches
Seal Length	10 1/4 Inches
Chamber Width	11 Inches
Seal Wire Width	5 Millimeters
Chamber Depth	15 1/2 Inches
Chamber Height	4 Inches
Amps	8.33 Amps
Hertz	60 Hz

Features

- 10 1/4" seal bar and seal wire are easily removable for cleaning
- Powerful 1/4 hp oil pump runs quickly and quietly; perfect for heavy-duty use
- Quickly seal bags in less than 6 seconds and vacuums in 20 to 40 seconds
- Control panel with simple digital controls for smooth operation
- 304 series stainless steel body for exceptional strength and durability

Notes & Details

Seal ingredients for storage or pre-cooked portions of food for later use with this VacPak-It VMC100P chamber vacuum packaging machine with a 10 1/4" seal bar. This powerful chamber vacuum packaging machine quickly seals each bag in 6 seconds or less and completely vacuums out the air in 20 to 40 seconds. This not only ensures efficiency, but a reliable, secure seal after every use.

Controls are designed for ultra-simple use, with arrow buttons to increase or decrease the duration of the seal or vacuum process. The digital controls also have a bright, easy-to-read display to show the vacuum pressure. This makes the unit's performance and progress easy to monitor, as does the built-in pressure gauge. Since the lid is transparent, you can even watch the vacuum packaging process first-hand.

To deliver a long-lasting product, the unit is equipped with an oil pump that's both easy to check and easy to refill as needed. It's tested for up to 200,000 cycles too, so you can be sure that the machine is a great investment for your business. The 304 series stainless steel body is an additional perk, as it won't corrode or rust from the accidental spill or leak. This particular model requires a 120V electrical connection for operation.
