

VacPak-It VMC12OP Chamber Vacuum Packing Machine with 12" Seal Bar and Oil Pump - 120V, 950W

Item #186VMC12OP

Technical Data

Width	14 1/8 Inches
Depth	16 3/4 Inches
Height	14 7/16 Inches
Seal Length	12 Inches
Chamber Width	11 13/16 Inches
Seal Wire Width	5 Millimeters
Chamber Depth	13 3/4 Inches
Chamber Height	5 1/3 Inches
Phase	1 Phase
Voltage	120 Volts

Features

- 12" seal bar and seal wire are easily removable for cleaning
- Powerful 2/5 hp oil pump runs quickly and quietly; perfect for heavy-duty use
- Control panel with simple digital controls for smooth operation
- Stainless steel body for exceptional strength and durability
- Quickly seals bags in less than 6 seconds and vacuums in 20 to 40 seconds

Certifications

Technical Data

Wattage	950 Watts
Control Type	Digital
Horsepower	2/5 hp
Installation Type	Countertop
Number of Seal Bars	1 Bars
Plug Type	NEMA 5-15P
Power Type	Electric
Pump	Oil
Style	Chamber
Vacuum Packaging Machine Type	Automatic

Notes & Details

Preserve the freshness of your most popular foods and increase their shelf life with this VacPak-It VMC12OP chamber vacuum packing machine with 12" seal bar and oil pump. This powerful chamber vacuum packaging machine quickly seals each bag in 6 seconds or less and completely vacuums out the air in 20 to 40 seconds. This not only ensures efficiency, but a reliable, secure seal after every use.

The easy-to-read digital display allows you to quickly use the intuitive control panel to adjust the machine's pressure levels. The adjustable seal and vacuum times offer complete control and options for a greater variety of foods, including liquid, dry, and wet products like soup and coffee. Adjust the seal time between 0-6 seconds and the vacuum time between 5-90 seconds for ultimate precision. In addition, the bag-clamp device inside the vacuum chamber lets a user easily place and secure the bag in one place, minimizing messes and spills. The 12" seal bar fits a variety of the most popular bag sizes and is large enough to fit any of your commercial needs. The bar has one 5mm seal wire running the entire length to ensure a clean and perfect seal every time. The seal bar is easily removed for cleaning and maintenance.

Since the lid is transparent, you can even watch the vacuum packaging process first-hand while the pressure gauge ensures the perfect seal. To deliver a long-lasting product, the unit is equipped with an oil pump that's both easy to check and easy to refill as needed. The 2/5 hp dry pump is tested for up to 200,000 cycles, so you know it's a long-lasting product that will ensure food efficiency and savings for your business for years to come. It is also quieter than a dry pump machine, making this unit perfect for both back- and front-of-house use. Its durable, stainless steel construction will withstand the rigors of commercial kitchen environments while remaining easy to clean. This unit requires a 120V electrical connection for operation.
