Temperature Range	-100 - 400 Degrees F
Type	False Bottoms

Notes & Details

Keep solid foods off the bottom of your steam table pans with the help of this Vigor 1/2 size long stainless steel steam table/hotel pan false bottom. A false bottom makes the food in the pan more visible and easier to reach, while the included drain holes ensure the liquids and sauces drain properly to prevent foods from being soggy or over-saturated.

Designed to fit in 1/2 size long steam table pans and hotel pans, this false bottom is made of sturdy stainless steel for added durability. A finger hole provides easier placement and removal of the false bottom from the pan. This convenient stainless steel false bottom prevents ingredients from standing in juices at the bottom of the pan to ensure better-tasting foods for your buffet or catered event.
