Notes & Details

Easily mix and store soups, sauces, and beverages with this Vigor 22 qt. translucent round polypropylene food storage container with blue graduations. Stain-resistant to food acids, oils, and alcohol, the container's design guarantees the durability you need in your commercial kitchen. Stack lugs near the top of this food storage container allow for convenient storing and let you easily stack containers without fear of containers sticking. Plus, the translucent design lets you quickly identify the contents inside.

This container also features bright, bold colored graduations in quarts and liters to make measuring easier when portioning out ingredients or prepared food. The wide design of the handles provides stability when transporting or moving your container from prep table to your storage shelf or walk-in refrigerator. The handles also feature a small hole to allow for water drainage and ensure quick and sanitary drying. Easily identify and track the date your food product was made using the reusable "date" indicator at the bottom of the container and use the "contents" indicator for quick identification. This container can withstand temperatures from 32 degrees Fahrenheit to 170 degrees Fahrenheit.

Designed to withstand heavy-use applications, Vigor includes everything from stainless steel and plastic hotel pans to aluminum fry pans. Each product is built with convenient features and commercial-grade materials; with a name like Vigor, our products are sure to deliver durability!
