Notes & Details

This Waterloo 10" gooseneck spout is a perfect replacement for the one that came standard on select faucets! The spout is a vital part of your faucet, providing the reach and flexibility to deliver water exactly where it's needed in the sink bowl. Additionally, the high gooseneck-style nozzle adds an extra element of elegance to your water fixture! It measures 12 13/16" high with a 10" length and 7 1/8" clearance, and comes with a 2 GPM aerator at the outlet, which helps to regulate the stream and reduce splashing. You can also use it to adjust an existing faucet.
