Notes & Details

This Waterloo 0.65 GPM pre-rinse spray valve with 44" faucet hose is an excellent choice when you want to upgrade your old pre-rinse sprayer and hose! Designed to provide the industry-leading quality you expect, this spray valve has a heavy-duty body with metal construction to prevent leaks and keep up with even fast-paced dishrooms. It boasts a 0.65 GPM low flow rate to blast away heavy soil deposits and ensure that glassware and dinnerware come out of the dishwasher clean and ready to use. It comes with a flexible 44" stainless steel hose and a hold-down ring so that you can lock the valve into the on position for constant use. Its universal design with 3/4" male inlet also allows it to be used on all Waterloo pre-rinse units.

Kit Includes:

- 0.65 GPM pre-rinse spray valve
- 44" stainless steel faucet hose
